-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-11,14,17-18,22,25-27,30,32,34,36-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takahashi'645.

Takashi'645 teaches a paper product substantially as claimed. The applied reference does not specifically mention the claimed marking-erasable coating. However, the examiner submits that it would have been obvious to one having ordinary skill in the art to coat paper with coating that is marking-erasable. In fact paper products are routinely coated with polymer coatings that protect paper. It would have been obvious to select water soluble coating for such application and optimize its properties, since it would improve recycling of the paper.

The amendments and remarks filled by applicants have been fully considered. The claims however, remain unpatentable in view of the new grounds of rejections. The arguments submitted by applicants are noted, however, they are not found to be persuasive. The examiner understands that applicant suggest the additional coating on the paper and called it marking-

erasable coating. It is well known in the art to apply additional coatings to the surface of the paper to modify the properties of the surface. It would have been obvious to apply a coating that does not allow the marker ink to be absorbed in the paper. Also, selection of the coating that makes it possible for a marker ink to be removed would have been obvious.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.
